

GO ON Althea®

A passion for design...

Welcome to the beautiful world of Althea Italian bathrooms

Althea UK Ltd has built a nationwide reputation for sourcing and supplying the finest Italian bathroom products to a wide range of house builders and developers, plus commercial, leisure, local authority and hospitality industry clients.

Based in Dewsbury, at the hub of the motorway network, the company is ideally located to supply the pick of Italian design in basins, WCs, baths, bidets, showers, taps & mixers, furniture and accessories, throughout the UK.

Our products combine elegance, innovation and the highest manufacturing quality with outstanding creativity. Althea offers the finest choice for those with an eye for style – and a demand for value.

You can see a comprehensive collection in our large showroom, where a team of enthusiastic staff are available to assist with your bathroom design requirements, for any size of contract.

We look forward to inspiring you with our style – and impressing you with our service. From budget to bespoke, Althea products add a unique Italian passion for design to any bathroom, in any building.

Althea bathrooms – Italian innovation for new homebuyers

Althea is proud to number a wide range of local, regional and national new homes builders and developers as their clients.

If it's true that bathrooms and kitchens are the rooms that sell houses, then developers specifying Althea bathroom products already have a huge advantage.

Althea can transform any size of bathroom into an inspiring, yet highly functional space, from minimalist chic to decadent luxury.

Our designers can integrate washbasins, bidets, WCs, baths and showers with bathroom furniture. We can manufacture specifically for your properties, adding new heights of exclusivity to your housetype specifications - at surprisingly attractive prices.

Wherever you need bathrooms,
Althea delivers.

Wherever there's a need for outstanding bathroom products you'll find Althea. Clean lines and a stunning finish make them simply brilliant in any situation.

We specialise in supplying house builders, developers, hotels, restaurants, public houses, hospitals, local authorities, leisure facilities and the prison service.

Our customer base is extremely diverse, yet all share a common need – once an order has been placed a totally reliable delivery service is required.

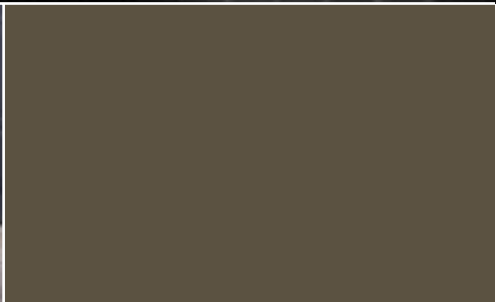

We fulfil this need by operating one of the most efficient logistics systems available:

Deliveries from Italy arrive at our massive warehouse in Brighouse, West Yorkshire, every few days.

Each product is identified by our online stock control system and allocated a unique number. These are retrieved, from a constant stock of several thousand items, as required, with speedy delivery to any address in the UK.

Make your guests feel even more at home

A well designed bathroom adds so much appeal to any hotel room. Space may be at a premium, but that is even more reason to specify Althea bathrooms – because great Italian design works in any size.

Versatility is another advantage - Althea bathroom products incorporate a timeless simplicity of line and form which performs extremely well in “themed” interiors, from a touch of the Orient to New York funk, Scandinavian cool to Mediterranean glamour.

All you need do is add the relevant fabrics, floorcoverings and furniture (and we can supply bespoke furniture too if required).

The strength to take the knocks

You may not immediately associate the best in Italian bathroom design with large public buildings such as hospitals or prisons.

When provided for use by people who may not be in the best of health, or face long terms of incarceration, it is important that bathroom fittings are as simple, strong and functional as possible.

Happily, Altea products have proved to be as tough as they're tasteful, enabling extremely cost-effective bathroom solutions to be installed wherever areas of high public usage are encountered.
